## Jay Bach

Jay Bach is an excellent coach, a wise teacher, a good friend, a one-of-a-kind father and a great person. Jay is dedicated to assisting students in achieving their goals, both in the classroom and on the playing field. As a coach he understands that a team is just that, a sport in which everyone has an opportunity to participate and contribute. In this day and age, this wonderful personal characteristic is an anomaly rather than the norm. Jay is a winner and he values winning, but he does not prioritize winning over the personal development of his players. Jay Bach is a fine man who has made and continues to make a positive difference in the life of every child he spends time with and works with, from Jr. Kindergarten to Seniors. Over the many years (38) of his dedicated service to North Shore, Jay's contributions to the School and to its students are too many to count. Jay is a difference-maker who makes the places and people he touches better.

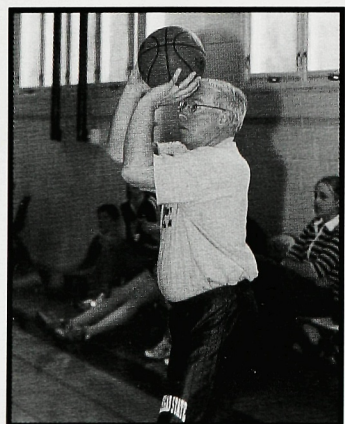

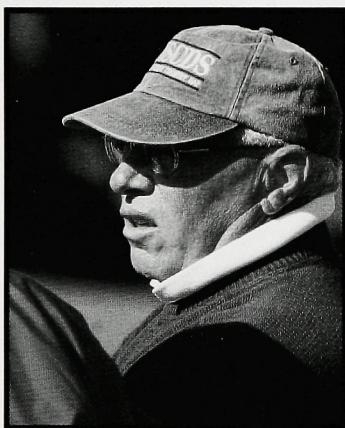

Chris Avery  
Class of '87

(Jay Bach is) "a steadfast and calming influence in a sea of high energy youth."

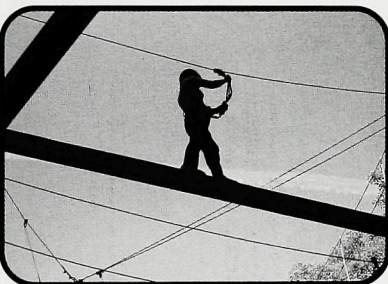

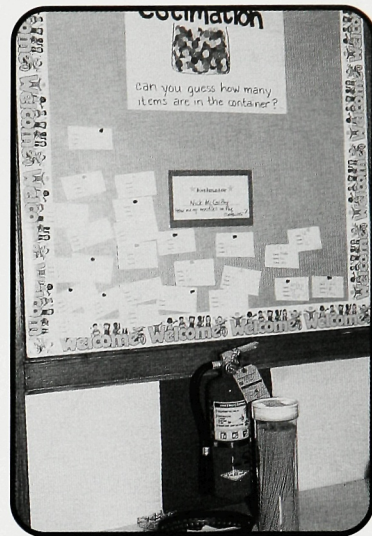

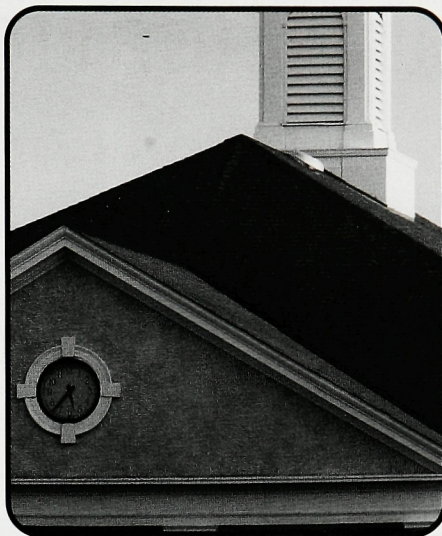

Nancy Green Whiteman  
Class of '71

"Even when he was well into middle age, he was the best athlete in school. He played against us in practice a lot and after going against him, games were easy...Everybody used to call him 'Easy'. I'm not sure how that started; probably because he made things look so easy... In the best North Shore tradition, he cared a lot about each student individually..."

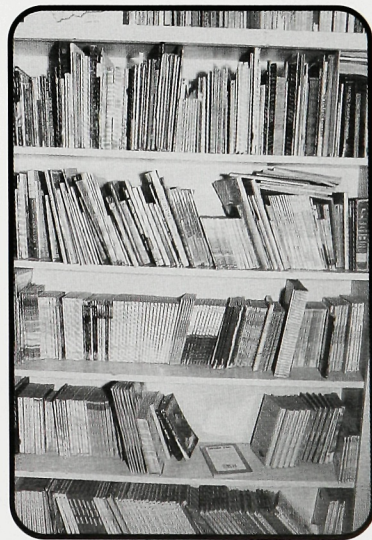

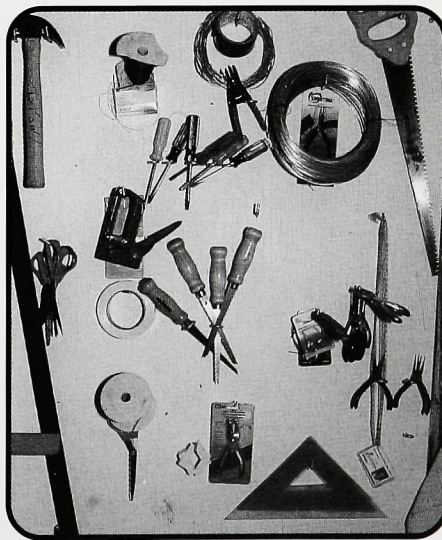

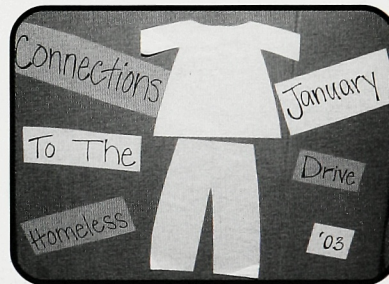

Bruce Blair  
Class of '69

This Is Our World  
 What a wonderful world  
 A world full of people from all backgrounds  
 A world to nourish the body, mind and soul  
 A world where dreams can become a reality  
 A world where we can love  
 A world where hate does not have to rule  
 A world where brotherhood and sisterhood can prevail  
 A world where peace is possible  
 It is a world for us all  
 It is our world, you, me and us

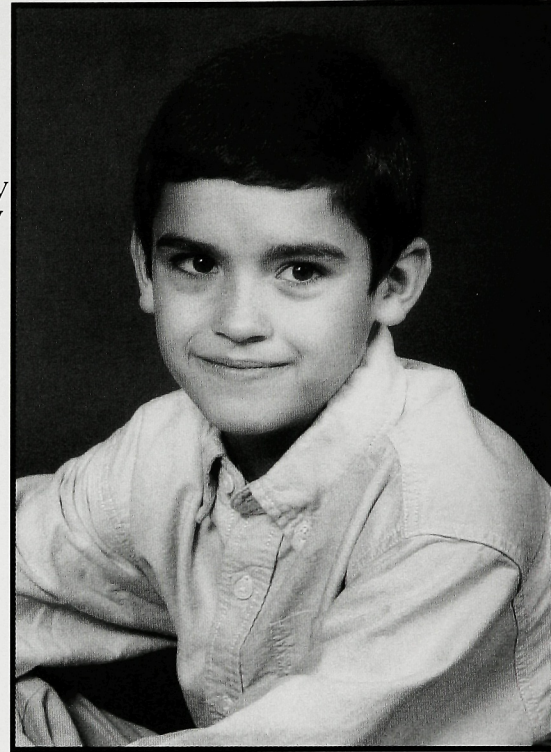

# In Memoriam

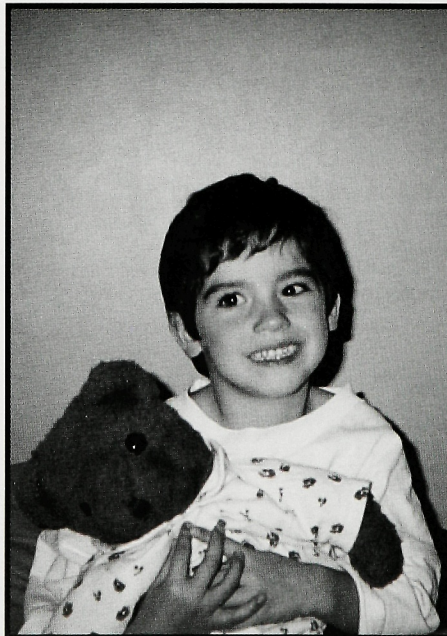

When someone we love dies, we often want to ask why. A more comforting question may be why did they live. There are so many answers to this question when we think of Louis Conant's life and the gifts he gave to all of us. Louis loved every aspect of life at North Shore, from daily classroom experiences to After-school Homework Club to Summer Camp. He loved to learn and participate in so many activities and did so with joy and enthusiasm. Louis's curiosity was apparent in every classroom from Junior Kindergarten on. His travel experiences around the world with his family enriched his knowledge base and he was so thrilled to get to share his experiences with his classmates. One of his favorite destinations was Italy where he became enthralled by the country and its culture. Louis loved the music program and participated in it as much as possible. He was an integral member of Recorder Club, chorus, and band. A favorite experience of his was composing and recording "There is Peace" with composer in Residence Jim Papoulis and his fellow chorus members. We hope you can find comfort in the chorus of this song whose lyrics Louis helped to write:

"There is peace in my heart  
And I know  
It will always be there  
In my mind and in my soul,  
Now I see it comes from me"

## Louis Conant

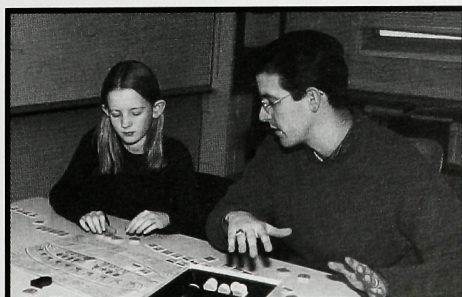

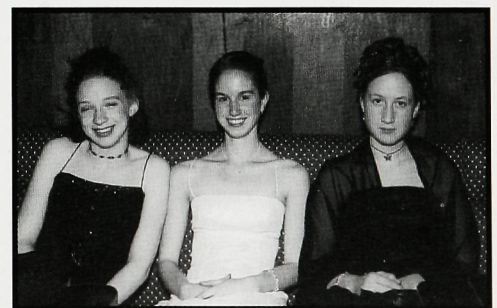

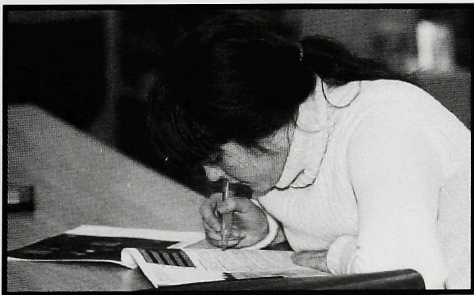

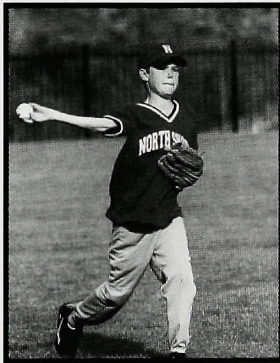

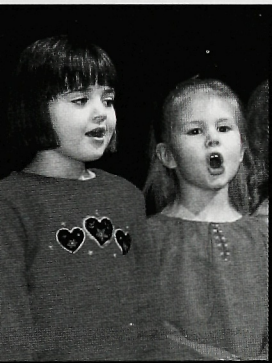

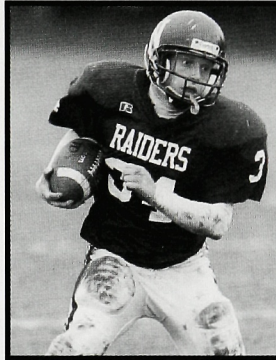

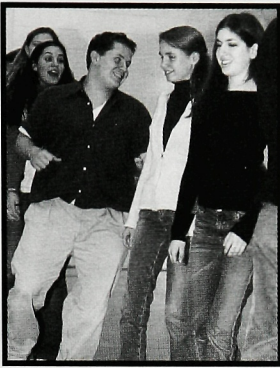

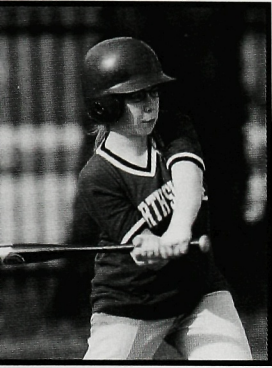

Louis had so many talents in swimming, soccer, and gymnastics. On the sports field, Louis was much more concerned about enjoying the game with his friends than he was about winning. One of Louis's most amazing qualities was his ability to befriend everyone he came in contact with. He was the consummate "people person." He loved both working and playing with all of his classmates. His friendship will forever be in the hearts of everyone whose life he touched. Louis had such a strong sense of self and followed his own interests and passions. He was one of the happiest people we have known and we have much to learn from the joyfull way he experienced life to the fullest. Louis, we love you and will always have you in our hearts.

"Love grows  
One by one  
Two by two  
And four by four  
Love grows  
Round like a circle  
And comes back knocking  
At your front door"

## The Girl Who Was Asked To Turn Blue

919 (Jamie Leslie), like his fellows, cannot understand a different skin color

764 (Matt Schorsch, center) talks with the blue boys and girls about what to do with their visitor

411 (Bill Reitz, center) with blue boys Spencer Bramson (left) and John Elam (right) hold Tracey Logan (Rachel Smith) as Number One (Conor Hulseman, holding paint can) prepares to turn her blue

Both of this year's plays centered around the theme of diversity. "The Girl who was Asked to Turn Blue" was about a girl, Tracey Logan, who finds herself in a world where everyone is exactly the same, and she is different. She is offered the choice to conform or be outcast. The play offered both endings, allowing the audience to decide which one was best.

Hazel Bergeron (Camille Snyder), an average woman, and Ethel Bergeron (Jamie Gerber), who wears a handicap radio on her ear to compensate for her above average intelligence

## The Handicapper General

The Handicapper General explored the question: "What if equality was total?"

George Bergeron (Garrett Biemer) who wears handicap glasses to correct for above-average vision sits with Harold Bergeron (Charlie McGillivray), who wears both a handicap radio and a bag to offset his strength.

Both plays addressed the issue of what happens when diversity is absent in a society. What happens when average is considered best and difference is subdued?

7th grade spirit made itself known with the thoughtful costumes that the students put together.

The 7th graders are the energetic middle child of the Middle School family. Their core faculty, Mr. Leesch and Ms. Rintels, work hard to create a positive, consistent atmosphere where cooperation is encouraged. Each individual student is encouraged to participate in every activity. The students are encouraged to work together to build team spirit. With small classes and an inclusive atmosphere, the 7th graders have developed an enthusiastic desire to learn and have developed a concern for those around them.

This year's 8th Grade class were the clear leaders in the Middle School. They were both role models for the younger grades, and supporters for each other. The class will be well prepared for their entry into highschool next year with the strong foundation of friendship and knowledge they have built this past year.

With regular classes suspended for the week of November 11, 2002, all of the Upper School students were engaged in a variety of programs during the school's annual, Interim Week program. Each year a week is set aside for Upper School students to participate in a sustained, in-depth experience of solid educational value outside the traditional classroom setting and time period. Some projects that took place during the week were

- A group of students visited Oaxaca, Mexico where they set up computers for North Shore's sister school in Xaaga and visited and learned about Mexican culture.

- Athens, Greece was home for another group of students who studied the history of Greek mathematicians and visited sites such as the Acropolis, Agora, and the Temple of Poseidon.
- In this country, students hiked trails in the Adirondack Mountains of New York State for the week and studied Marine Biology in the Florida Keys.

- Live and Serve experiences were also part of the week with students at Evanston and Highland Park Hospitals, the Molloy School, and Wealshire. Another group of students continued to paint a mural (begun during Interim 2001) for the Good News Community Kitchen in Rogers Park.

# Winter Play: Wiley and the Hairy Man

Wiley (right) is protected in his quest by his faithful dog, played by Mullery Doar.

It's all in the shoes. The Hairy Man, played by Ross Blumenfeld (left), terrorizes the town until Wiley (Henry Webster, below) vanquishes him.

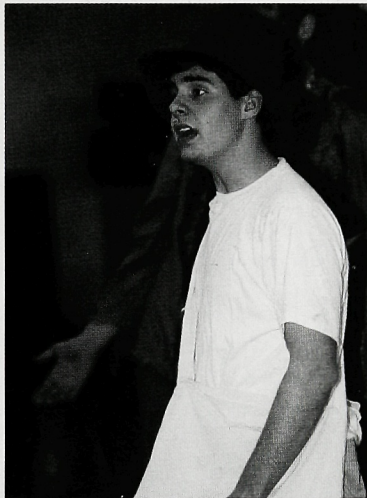

The play was performed in the round, making it a challenging experience for all the actors.

Mammie (Laura Harris) commands magic that allows her to

conjur up needed objects (below), but not enough to get Wiley out of bed.

Makeup driector, Mr. Leesh, demonstrates technique on Alex Kerr, 11th.

Wiley was supported by an excelent chorus who formed the human-props for "Hairy Man." Nick Whalley (right) becomes a swamp creature while Katie Butler and Carol Hardiman (above right) form a fireplace for Mammie.

We had a great season this year. A lot of the guys stepped up and made big contributions while the older guys did a great job of bringing the team together. The highlight of the season was defeating Williams Bay, handing them their first defeat on their home field in over 15 years and their only defeat of the season. Our overall record of 5 and 5 gave us a birth in the playoffs and several members made the All Conference team. In addition, Henry Gaud rushed for over 1000 yards.

The volleyball team completed a great season this fall. Each player put in her best efforts in both the Junior Varsity and Varsity teams, as did their coaches Nicole Collias & Richard Woo. Highlights of the season include the Varsity team's victory over Waldorf in the year's final match.. The Junior Varsity team put forward their best efforts and played their best match of the season on Homecoming Day. The team and their coaches were commended by fellow schools throughout the season. The team and coaches received the SOWA (Sport of Winning Attitude, Award) this year for their outstanding teamwork and positive attitudes both on and off the court. It was an amazing season. Congratulations girls!

*A Quote from our team captain:* "This year's

tennis season was awesome. The players always had a positive attitude and a smile on their faces. On the court, we played hard, and in the stands we cheered loud. It was fun for me to see the team's comradery grow over the course of the season. When I think about this incredible season a smile comes to my face as I remember carbo fest, pot belly's, homers, dressing up, cheers, and friendships."

Both J.V. and Varsity tennis have enjoyed and welcomed the company of new teammates this year. The team has had productive practices and games. We have all improved our skills, which has led to winning more matches. The important thing is that we have all had fun playing tennis. This

is the second year Coach Colin Irwin has worked with our team. Our team captian, senior Sarah Blenner, brought much spirit and fun to the tennis season. She was a great leader; giving us positive encouragment and cheering us on at the matches. We had 17 team members including two foreign exchange students, Ana Ivancik (Macedonia) and Elisabet Sarroca (Mexico), on our team this year. Ana said, "It was really fun because you got to know people, especially if you are new."

My family, unlike my friends, are decided for me. I can't pick and choose them, But even if I could, I would choose the same family without hesitation. I've been blessed with such a loving and understanding family, I love you!

Bertha, my second mother, I regret not showing my appreciation for you more often. ¡Te quiero mucho! ¡Gracias por todo!

Mom and Dad,

"Parents are traffic signs that are always in our blind spots." -Jeremy P. Johnson

It's been a crazy 19 year-long rollercoaster ride, but the ride has finally come to it's next destination. We've made it. Congratulations, you two have raised a wonderful and charming young man.

"I love you for always, I love you forever."

Jeff,

I'm sorry for the bad times and I'm thankful for the good. I will cherish them for years to come, I'll miss you ... take care of everything for me and treat mom and dad well, they deserve more than words can express. I hope that in time we'll only become closer. I love you.

That would be me...

Mom and Dad, I love you

Not just a brother, but a friend

Forever friends, always

There are places I remember,  
All my life, though some have  
Changed, Some forever  
not for better, Some have gone  
and some remain, All these  
places have their moments,  
With lovers and friends, I still  
can recall, Some are dead  
and some are living, In my  
life, I've loved them all

-The Beatles

You have always been there and  
have made me a better person

Girls, you mean so much  
to me

Thank you for caring,  
I'll miss you!

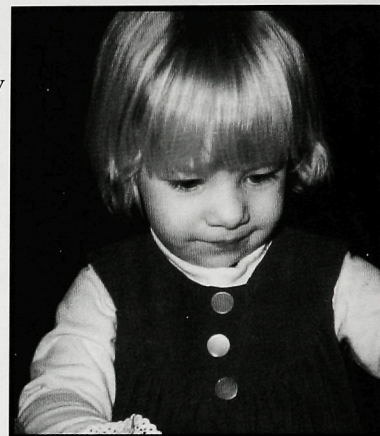

Carola, I've missed  
you!

# Lifers

*Lifer: (noun); A student who entered North Shore in either the Junior Kindergarten or Senior years later.*

**Abby Smith:** “My thirteen years at North Shore have been filled with happy memories, such the musicals, lower school chorus, PE with Mr Deuble, building the bridge in Middle School, pumpkin picking with my senior buddy (Nick), field hockey, and being a senior buddy now. Being a Lifer at North Shore has been an amazing experience. I was able to meet some of the most important people, yet I was one of the few in North Shore’s history to have Ms Wood twice. Middle School was a good time for learning for me. I was taught to become the student I am today. My high school years, though, have been the best. I’ve made so many friends and I was able to interact with so many really great teachers. It has been an honor to be a member of the North Shore community for thirteen years. Thanks to all my teachers, classmates, Henry, Steve, Andrew and the Class of 2003.”

**Henry Gaud:** “My many years at North Shore have been so great and really fun. So many teachers and friends have contributed to my enjoyment for thirteen years. I have so many spectacular memories like sitting on my buddies’ laps (Steve and Steve) in SK, having forty seconds to go to the bathroom when your not allowed to run in the halls in fourth grade (tha you Ms. Wood), the Washington trip in eighth grade, and sitting with my SK buddy on my lap. GO RAIDERS!!”

## Steve Cooperman:

"It's been a great experience at North Shore for the last 14 years. I never thought I'd make it all the way to the end but now that I'm here it's going to be difficult to leave. So I'd like to thanks all the teachers who have helped me on my way. Memories from my years here have been great and I never could have done it anywhere else. Some of my favorite memories are the first grade viking ship, middle school student council, and the great interim opportunities in high school."

**Andrew Hill:** "Here is where you make it, and North Shore has made itself my home. North Shore has been a part of my life for 14 years. I've grown up here, learned here, and lived here. Having spent nearly eighty percent of my life here, I've been impacted and changed a lot. Though I look forward to leaving North Shore with all that I've learned, I know I'll miss leaving a place so close to my heart."

Dear Rachel and Rainey,

Never forget life is a journey. Where you find yourself at any given moment is where you are meant to be at that moment only; it need not be where you are meant to stay forever. This is true for the spirit as well as the body. It's now four years since this photo was taken. Much has changed. Much remains unchanged. The journey continues. We love you.
